COMPLETE COVERAGE

Gutters provide uninterrupted protection between multiple outdoor umbrellas. Connecting umbrellas enables large areas to have complete coverage from the sun or rainy weather conditions.

A gutter is always attached to the umbrella at a slight decline to allow water to drain off efficiently in desired directions.

Our gutters are only applicable on the following umbrellas:

- JCP.201 (p. 65)
- JCP.202 (p. 66)
- JCP.501 (p. 75)

They are available in the same colour as your canopy to blend in perfectly.

* Stainless steel LOXX® to easily attach the canopy to the frame and detach it.
