# about us

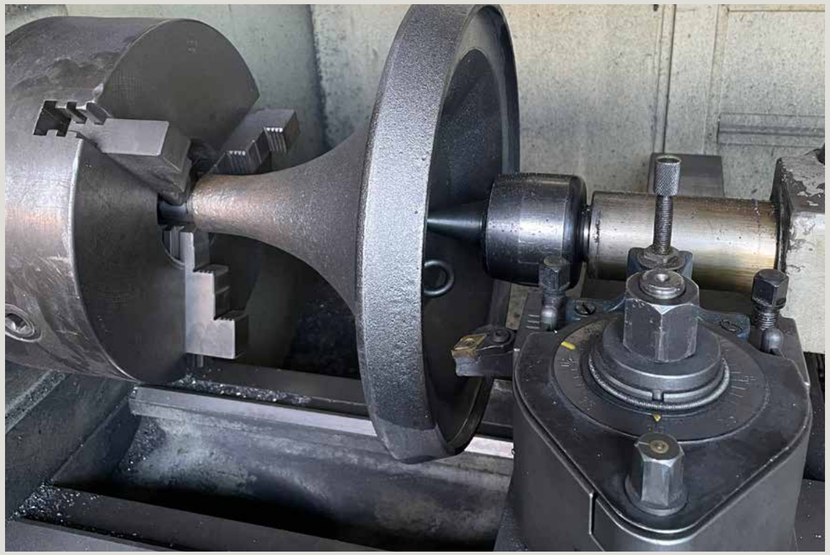
Lasting memories 11

Belgian customized design 13

Since its foundation in 1996, quality has been at the core for Joli. This is reflected in the stainless steel and aluminium tables with ceramic tabletops. But also in the other high-quality furniture, such as chairs, loungers, cabinets and accessories. Thanks to their durability, the furniture is more than just an object. It becomes the place where you create lifelong memories.

Joli manufactures furniture that meets current material and stability standards, all aligning with the newest design trends.

Furthermore, we also offer bespoke furniture on request. Thanks to a wide range of finishes in a variety of styles, a great eye for detail and an ear to the latest developments in market trends, Joli manages to offer designs that are both timelessly modern and trendy.



# belgian customized design

Joli is a Belgian quality brand for customized tables, chairs, accessories, loungers and cabinets. One by one handmade.

This also ensures that Joli can offer custom-made craftsmanship. With this offer, we occupy a unique position worldwide. Curious what we can do for you? Feel free to reach out via info@joli.be.

Our products are 100% Belgian in terms of quality and design. We work exclusively with domestic designers. We are constantly looking for new techniques and improvements to create lasting memories.

Get ready to be inspired!

# central

Meet our Central table. We present it to you proudly, with a round, elyps and square table top. It’s ready to become the centerpiece of your home. The central table foot provides great freedom of movement under the table. Lots of table space, carefully mounted on a compact, yet steady, trestle. Finished with an as practical and stylish ceramic tabletop.

The Central table includes the sharknose, a rejuvenating edge, as a standard finish for the ceramic top (only with Xeramica® 13 mm).

# chagall

The ultimate in feminity: Chagall’s ‘egg cup’ curves are organic and graceful. The shaped foam seat can be upholstered in vegan leather or a fabric with a pleasant feel. This beautiful designed armchair is available with either a fixed foot (x-base or sled base) or spinning foot. Despite its strikingly light structure this is a strong, long-lasting chair.

# curve collection

# curve

Organic lines, that’s what this collection is all about. These lines cause both the tables and the chairs to be a visual delight. The table frame is characterised by a triangular extrusion profile which, in combination with light, leads to an elegant play of shadow lines. The Curve chairs and tables can be put together in such a way that they complement any decor. The chairs are perfect for long days of sitting, because the slight curve and the flexible upper part allow you to sit up straight without looking too stiff.

# fizz collection

# fizz

The starting point of this collection is organically shaped aluminium. The slender, femine lines and curves give these tables and chairs a visual lightness.

The seat pattern was inspired by traditional rattan. Replacing this with high-end Italian rope produces an extremely attractive and recognisable modern look. Not only is the rope very comfartable to sit on, it is also totally wheaterproof and dries extremely quick.

# gaugin

In a short time, working from home has become more and more normal for many people. Therefore, a comfortable chair that seats you well is important. Comfortable but not too bulky, that’s the Gaugin. Combined with the Vespa wheels, you easily move along your desk without scratching the floor. This chair is also a great option for a dining table.

# mathias de ferm

Mathias De Ferm is a product and furniture designer from Antwerp, Belgium. Collaborating with renowned international brands, his work includes furniture, products, lighting and micro-architecture.

His work is characterized by a strong belief in the social relevance of design. A dining table, for instance, is not limited to its practical qualities. It forms the social centerpiece of a home: a place where people gather to eat, drink and talk with each other. This idea led to a serene yet warmhearted aesthetic and the frequent use of durable materials.

# wire collection

# wire

The idea behind the Wire collection, a design by Mathias De Ferm, is ingeniously simple. The tables and chairs  are fashioned from fine, stainless steel wire: a single collection with one highly recognisable design line.

These are suitable for both indoors and outdoors, are lightweight and solid, and are available in versatile finishes with a range of tabletops. A strinking detail is that the legs are angled outwards from a central point, giving the entire piece an even lighter look.

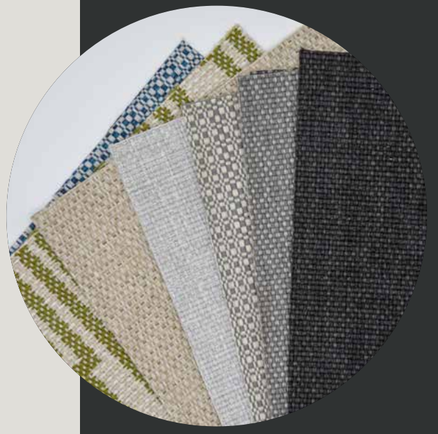
# surviving seasons and generations



We believe in durability. Our furniture is designed to last. Robust, yet cosy. We always use stainless steel and aluminium for our tables and our table tops are made of Xeramica®, a product that is beautiful and practical.

Because of our choice for quality all our tables, accessories and loungers can be used both indoors and outdoors. This also applies to many of our chairs and their cushions.

# ceramic table tops.

# xeramica®

The table tops are available in 11 different ceramic types.

Xeramica® consists of minerals that are compressed under high pressure and at a high temperature to create a very dense, homogeneous structure.

The advantages of Xeramica®:
- No scratches*
- 100% UV resistant
- Does not absorb fat, acid, water or wine
- 100% frost-resistant
- No visible dust
- Easy to maintain
- For indoors and outdoors

**Xeramica® 6 + 6 mm**
This is a 6 mm ceramic plate laminated to 6 mm tempered glass.

**Xeramica® 13 mm**
This is a full ceramic plate with a glass fibre membrane underneath.

* Caravaggio is more sensitive to scratches due to a high-gloss layer.

# fenix®
# for your cabinets.

# fenix®

Recently, we added FENIX® to our material range. This matte finish avoids fingerprints because of its nano-technology surface and guarantees timeless style. A perfect choice for your cabinet.

FENIX® products are made of paper (over 60%) and thermosetting resins (30 - 40%). The FENIX® products are created by a pressing process in which heat and pressure are applied simultaneously in order to obtain a homogeneous non-porous product.

The advantages of FENIX®:
- Low light reflectivity
- Extremely matt surface
- Anti-fingerprint
- Thermal healing of superficial microscratches

And finally, as an additional great benefit FENIX® innovative materials for interior design are carbon neutral!

choose your fabric.

# fabrics

With 7 different types and a total of 41 colours, there is plenty of choice in our fabrics.

Are you going for a new outdoor chair? Then choose nautic linen in 8 contemporary colours. Or go for Smooth, the fabric you would hardly believe is not only an indoor fabric, but also an outdoor one. As the name says, super soft!

We also have 5 interior fabrics. You can choose real leather or would you rather go for the equally beautiful vegan variant? Furthermore, we have easy care fabrics and corallo. Or go for more shine and a brighter colour with velvet.

# maintenance

## all clean

Powerful, varsatile and safe cleaner for all applications, indoor and outdoor. Removes grease, dirt and green soiling. Cleans: garden furniture, fenix, vegan leather, table tops, textile fabric covers and tarpaulin.

## glass clean

Glass clean does not leave scratches and is therefore most suitable for cleaning matt glass, ceramics or stainless steel. This makes it the perfect agent for treating aggressive grease marks or tough dirt on Matilux®, even surface rust on stainless steel (brown spots).

## textile protector

High-performance protection product for upholstery textiles. The dirt-repellent layer means that food and drinks will not leave stains. This will ensure that your furniture lasts for many years without stains.
