surviving seasons and generations

Our furniture is designed to last. With stainless steel and aluminium, topped off with Xeramica® table tops, we create beautiful and practical furniture. A conscious choice for timeless design and durable materials.

This strong focus on quality doesn't stop at our tables. We extend this promise to our range of chairs, loungers and accessories. That's a full range of furniture, from generation to generation.

ceramic table tops

xeramica®

The table tops are available in 14 different ceramic types.

Xeramica® consists of minerals that are compressed under high pressure and at a high temperature to create a very dense, homogeneous structure.

The advantages of Xeramica®:
- No scratches*
- 100% UV resistant & 100% frost-resistant
- Does not absorb fat, acid, water or wine
- No visible dust
- Easy to maintain
