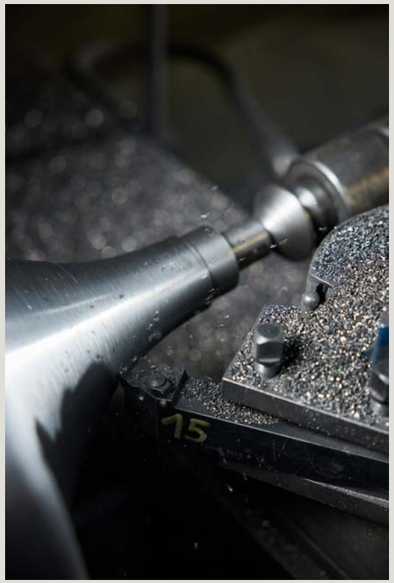
Belgian quality furniture 15

lasting memories

For over 25 years now, a versatile team of Belgian top designers have put Joli on the map. With 100% Belgian design, timeless concepts and a refreshing view on furniture. We're blurring the lines between indoor and outdoor design, combining convenience, comfort and strong esthetics.

Indestructible ceramics, stainless steel and lacquered aluminium are the Joli pledge to make your memories and furniture last. Today, tomorrow and far beyond.

Our ceramic table tops open a new world of endless design possibilities. This unique approach gets an exciting follow-up in our range of chairs, loungers, cabinets and accessories. With durable quality and timeless design as common denominator.



belgian quality furniture

Joli is not just a brand. It's a quality label for Belgian design, made to suit your needs and complement your life. Today, tomorrow and always. A wide range of finishes, a variety of styles and a great eye for detail give you full control over the look of your Joli chair, table or cabinet. And we take it even further, with custom-made projects. Furniture on request, enhanced by the latest trends and technical innovations.

Our domestic designers and true craftmanship are part of our Belgian trademark. It's the strength of Joli, that keeps on feeding our collections and your furniture possibilities. Enriching your home and your life. Distinct choices like the sharknose of our tables add a rejuvenating edge to your interior or exterior. Making you feel right at home.

central

Meet our Central table. We present it to you proudly, with a round, elyps and faux elyps table top. It’s ready to become the centerpiece of your home. The central table foot leaves maximal space, offering just the sense of freedom you’re looking for.

The table is carefully mounted on the compact trestle, guaranteeing a stable and dependable beacon for your daily life. An unmissable furniture piece with a distinctive character. Now available in a bigger range of formats.

Did you know this trumpet base is now also available in some chair collections? Extended due to success. For your enjoyment.

chagall

Chagall's 'egg cup' curves are organic and graceful. The ultimate embodiment of feminine elegance. The soft curves of the seat offer you great comfort, while the vegan leather or fabric adds a pleasant feel to your seating experience. No wonder after all these years it's still a Joli classic, adding style to a wide range of projects.

The light structure rests on a firm foot. Besides the sled, spinning or x-base, there's now a new central base. The same seating experience, with the finish you love the most. With the palet of easy care colours – including the new, dark and cosy mokka or anthracite – as the icing on the cake.

curve

Organic lines and smooth edges. That’s what defines Curve. The triangular table frame, with or without crossing legs, sets in motion a fascinating yet elegant play of shadows. Curve chairs match the concept, whilst maintaining their own identity. The slight curve of the seating and the flexible upper part give you great support. Even for long days around the table.

Curve happily taps into perfect imperfection. Recognisable, charming and inviting. At all times and in any room. To create even more opportunities, the Curve collection also has coffee tables in the family. That’s what we call timeless design with an edge.

Meet John Ghekiere. You can also call him Mister Joli. Since the start in 1996, he has been the inspiration and the driving force of Joli. Combining signature design with new materials and techniques. Functionally, durably and with a sharp eye. These values are an intrinsic part of Johns personality and of his collections.

These pieces of furniture are more than just an object. They become the place where you create lasting memories.

GERMAN DESIGN AWARD WINNER 2020

fizz

Traditional rattan, taken to the next level with high-end Italian rope. Combined with slender, feminine lines and curves it gives the Fizz-collection its recognisable, modern look. The rope is totally weatherproof and dries extremely quickly. That makes for the perfect outdoor furniture, with the indoors charm and comfort you're looking for.

Add one of the sparkling tables, defined by their iconic foot. The ceramic table tops offer you maximal freedom in creating your own indoor or outdoor magic. The accompanying fizzy drinks are optional, but highly recommended.

layers

The Layers table is seemingly floating. No wonder this iconic design never fails to fascinate your guests. This wonderful illusion makes for a very light and spacious look. The wide range of ceramic table tops make it an excellent choice for indoor and outdoor use.

Since we love to see our family grow, we'd like to put the spotlights on the Layers wall table. After all, this is the first piece of furniture that welcomes you when you come through the frontdoor. Holding your car keys or a lovely family portrait. So you better make it count. Now Layers offers even more chances to add this surprising and charming design to your home.

marguerite

Like an artist creates a layered piece, Marguerite does not immediately reveal all its secrets. The conical legs make the tables and chairs a good fit for any environment. Indoors and outdoors. Character, elegance and subtlety in a sophisticated design.

Marguerite doesn't stop at tables and chairs. The lounger is the perfect multifunctional piece for your terrace. From lounger into sofa and back, within seconds. Add a round coffee table from the same collection to put your drink, your book or both. Enjoy!

mathias de ferm

Furniture, products, lighting and microarchitecture. That is the wide scope and creative eye of Antwerp designer Mathias De Ferm. By collaborating with renowned international brands, he puts his unique style on the world map. His work is characterized by a strong belief in the social relevance of design. A dining table, for instance, is not limited to its practical qualities. It's the social centrepiece of a home. Here people gather to eat, drink and interact. With De Ferms warm-hearted aesthetic and durable materials as a guiding principle.

olivo lounge chair in moss-tex white | curve coffee tables (dia 60 & 50 cm) with bronze frame, ceramic table top caravaggio and sharknose border

propeller

Powerful but meticulously conceived and designed. The Propeller table is inspired by aircraft propellers. Not just in its shapes and forms. Also in its energy and stability. The sleek, streamlined dining table (available in faux elyps, rectangular or elyps shape) exudes peace and strength. Giving you all the space you need. Literally and metaphorically.

collection

GERMAN DESIGN AWARD SPECIAL 2019

wire

Refined and solid, suited for indoors and outdoors, but above all highly recognisable by its unique design. The Wire collection, designed by Mathias De Ferm, takes a simple idea to the next level. The tables and chairs are piece by piece handmade from fine, stainless steel wire. From bar stool and armchair to 3-seat and lounger.

The versatile finishes and the broad range of table tops make for a great match in any setting. The legs angled outwards give the entire piece an even lighter look.

cube 55

Cube 55 is the smallest family member. But remember: great things sometimes come in small packages. Cube 55 combines blocks of 55 x 55 cm to perfectly fit your needs. Standing or hanging: you’re sure of a made-to-fit cupboard, that suits your daily life and your specific habits.

New is our standalone cabinet, Cube 55-O. This looks great from every point of view. The back plate, firm legs and rounded corners make it a great asset to your room. No wonder the ‘o’ refers to organic. Fenix® finish gives it a sleek and modern look. Making life easier, thanks to its scratch-free nature, not even showing fingerprints.

Deviating from traditional concepts to create new opportunities. That is exactly what the Collins side table does. Instead of a central leg, the tabletop rests seemingly casually from its side on the v-shaped base. The powder-coated aluminium is the perfect support for joyful get-togethers.

This lightweight side table is perfect for indoor and outdoor use. You choose between two different heights or combine both. Putting them aside? Simply slide the low Collins table under the higher version to make sure the right composition is always within reach.

surviving seasons and generations

Our furniture is designed to last. With stainless steel and aluminium, topped off with Xeramica® table tops, we create beautiful and practical furniture. A conscious choice for timeless design and durable materials.

This strong focus on quality doesn't stop at our tables. We extend this promise to our range of chairs, loungers, cabinets and accessories. That's a full range of furniture, from generation to generation.

ceramic table tops.

xeramica®

The table tops are available in 12 different ceramic types.

Xeramica® consists of minerals that are compressed under high pressure and at a high temperature to create a very dense, homogeneous structure.

The advantages of Xeramica®:
- No scratches*
- 100% UV resistant & 100% frost-resistant
- Does not absorb fat, acid, water or wine
- No visible dust
- Easy to maintain

Xeramica® 6 + 6 mm
This is a 6 mm ceramic plate laminated to 6 mm tempered glass.

Xeramica® 13 mm
This is a full ceramic plate with a glass fibre membrane underneath.

* bianco d'oro, black diamond and caravaggio are more sensitive to scratches due to a high-gloss layer.

fenix®
for your cabinets.

fenix®

Recently, we added FENIX® to our material range. This matte finish avoids fingerprints because of its nano-technology surface and guarantees timeless style. A perfect choice for your cabinet.

FENIX® products are made of paper (over 60%) and thermosetting resins (30 - 40%). The FENIX® products are created by a pressing process in which heat and pressure are applied simultaneously in order to obtain a homogeneous non-porous product.

The advantages of FENIX®:
- Low light reflectivity
- Extremely matt surface
- Anti-fingerprint
- Thermal healing of superficial microscratches

And finally, as an additional great benefit FENIX® innovative materials for interior design are carbon neutral!
