**Lux finish**

Both widths are turned under and the lengths are serged with a matching woolen yarn on which an elegant braid is sewn.

Beide Breiten sind untergegeschlagen; die Längen sind mit passendem Wollgarn gekettelt und einer eleganten Borte versehen.

Les deux largeurs sont rembourées et les longueurs sont surjetées avec un fil de laine assorti sur lequel une tresse est cousue.

Ambos anchos están doblados por debajo y los largos llevan una costura en lana formando una elegante trenza.

De twee breedtes zijn omgevouwd en de lengtes zijn afgeboord met een wollen matching draad op dewelke een vlechtje is genaaid.

Entrambe le larghezze sono risvoltate all'interno mentre le lunghezze sono fissate con un filo di lana abbinato su cui viene cucita una elegante treccia.

Pampellone - PP32044 Faro

## Pampelonne is characterized by a deliberately random design.

Each rug is therefore unique.

The cut is always made in the vertical direction of the roll.

- Le Pampelonne se caractérise par un dessin aléatoire volontaire. La coupe se fait toujours dans le sens vertical du rouleau. **Chaque tapis est donc unique.**
- Pampelonne wordt gekenmerkt door een bewust willekeurig ontwerp. Er wordt altijd in de verticale richting van de rol gesneden. **Ieder tapijt is daardoor uniek.**
- Pampelonne zeichnet sich durch ein absichtlich zufälliges Design aus. Der Schnitt erfolgt immer in vertikaler Richtung der Rolle. **Jeder Teppich ist daher einzigartig.**
- Pampelonne se caracteriza por un diseño deliberadamente aleatorio. El corte siempre se realiza en la dirección vertical del rollo. **Cada alfombra es, por lo tanto, única.**
- Pampelonne si caratterizza per un disegno deliberatamente casuale. Il taglio avviene sempre nella direzione verticale del rotolo. **Ogni tappeto è quindi unico.**

Lux finish

Both widths are turned under and the lengths are serged with a matching woolen yarn on which an elegant braid is sewn.

Beide Breiten sind untergegeschlagen; die Längen sind mit passendem Wollgarn gekettet und einer eleganten Borte versehen.

Les deux largeurs sont rembourdées et les longueurs sont surjetées avec un fil de laine assorti sur lequel une tresse est cousue.

Ambos anchos están doblados por debajo y los largos llevan una costura en lana formando una elegante trenza.

De twee breedtes zijn omgevouwd en de lengtes zijn afgeboord met een wollen matching draad op dewelke een vlechtje is genaaid.

Entrambe le larghezze sono risvoltate all'interno mentre le lunghezze sono fissate con un filo di lana abbinato su cui viene cucita una elegante treccia.

## Your Limited Edition rug is made with the best care and attention.

In order to keep your rug as beautiful as it is intended to stay, please make sure to read the following maintenance instructions carefully

- We advise you to vacuum the rug with a normal (upright or cylinder) vacuum cleaner, but without the rotating brush engaged. Rugs should be vacuumed regularly but not aggressively. We use nice and natural fibres to make our rugs, and they need soft and loving care.
- Vacuum in all possible directions to clean the dense piles thoroughly and to air the yarns in order to raise them back up again.
- A dry environment can result in extra pilling or shedding of the yarn. A humidity between 50-70% will enhance the lifecycle of your rug.
- In order to avoid 'regular use marks', we advise you to rotate the rug 90° every six months. This will alter the traffic pattern on your rug's surface.

- Do not use a vacuum cleaner with a rotating brush, this will damage the yarn.
- Do not use highly acidic cleaning agents, bleaching products or white spirit to remove stains from your in- or outdoor rug. This will cause discoloration of the yarn.
- Do not use a high-pressure cleaner on your outdoor rug.
- Don't drag your furniture or chairs over your rug: lift them up. This will avoid ripping yarns out or leaving ugly marks.
- Do not fold your rug. Roll your rug from the short side. Rolling the rug is the best way to help the rug's fibres stay in good shape when moving or storing it. Make sure the rug is kept horizontal while stored and do not put heavy furniture on the rolled rug.
- Never use water on rugs made of leather, sisal, Tencel, bamboo, viscose fibres. Always check what your rug is made of before taking any action.

### Prompt removal of stains

- Wet stains need to be removed immediately, before the yarn absorbs the fluid. Absorb the stain using a strong absorbing paper, like white paper towel. Do not, in any case, rub the rug when it is wet. This can damage the fibres and the structure of the rug and the stain will get embedded into it.  
  
Absorb maximum fluids without rubbing but putting light pressure and repeat the process several times replacing the white paper towel when saturated. Add a few drops of water to dilute if necessary, and repeat the process until the stain disappears or is dry.
- With dry stains, we recommend scraping them carefully and then vacuum clean the remaining waste. Begin from the edge of the stain and scrape towards the centre. Be careful not to damage the fibres.
- In case of heavy staining or transferred dirt, we advise you to always have your rug dry-cleaned by a specialist in rug cleaning. Please state clearly that your rug needs to be cleaned without using water.
